HOMŒOPATHY.

HOMŒOPATHY WAS FIRST INTRODUCED BY Samuel Hahnemann (an eminent German physician) about 75 years ago. Like all other great sciences it was met with strong opposition at first; but its believers have kept increasing, and at the present time it is practiced throughout most all parts of the civilized world. Many persons think that Homœopathy means minute doses, which is not the case. Homœopathy means prescribing a remedy according to the law (*similia similibus curantur*) or like cures like. Although from the experience of thousands of physicians the medicinal effect of the drug has been found to be much more powerful (in most cases) in removing disease when prescribed in small doses, we give medicine enough to cure the disease without injuring the system of the patient, as is often the case in the old school system of treatment. Fifty years ago Dr. John F. Gray, of New York, was the only Homœopathic on this continent. He has lived to see 16,000 Homœopathic Physicians in the United States (many of them converts from the old school) ten Homœopathic Colleges, as many scientific journals, several well-appointed hospitals and numerous dispensaries. There are also many physicians of this school in England, Canada, Germany, France and other parts of the world. But why are the Allopathic Physicians constantly changing and adopting the Homœopathic system of treatment? Because after thoroughly investigating Homœopathy they find it much more scientific, and that many diseases can be cured by this system after all other treatment has failed. Instead of giving massive doses of the drug to reduce the patient, we give it in small doses, which have a tendency to build up instead of undermining, as it were, the system of the patient.

TUESDAY MORNING, DEC. 30TH, 1879.

L. P. FISHER, 20 and 21 New Merchants Exchange, is our authorised Agent in San Francisco.

THE "GALLED JADE."

If the whine that issued from the Government paper yesterday morning be evidence of the frame of mind to which the leader-writer of that high-toned journal has been reduced, we should say that the "galled jade" is considerably depressed and actually "winceth." That he should whine under his whaling is not strange. Bullies and blackguards are always curs at heart; but that he should attempt to excite popular sympathy by speaking of the grief which our article of Christmas Day has caused in one household, does seem strange when it is remembered that for three years past he has written numerous articles in which he has spared neither age nor sex, and in which the editor of this journal has been charged with every crime in the calendar short of murder. Of course, the sensibilities of other households are not to be considered by a man and newspaper that have not hesitated to assail even female chastity to avenge themselves of real or fancied affronts from political opponents. It is only when their own feelings have been hurt by a just criticism of their own characters that they have found out how exceedingly improper personal assaults of any kind really are. We have said not a word of our contemporary which we shall under any circumstances withdraw, resting satisfied that every man in the community who has read the long series of grossly personal attacks the *Standard* has made upon us, and those with whom we are connected, is of opinion that he has scarcely received his just deserts. With respect to the republication of our exclusive dispatches by the *Standard* without credit we surmise, from its failure to copy our dispatches of Sunday, that the practice has been discontinued in that office. If such be the fact, we see no necessity for a continuance of the controversy; and dismiss the subject with the expression of the hope that should the "galled jade" institute legal proceedings against us for the publication of our Christmas article, which bubbled over with good will and affection, he will treat the counsel he may engage with more consideration than he did the learned gentleman who defended him in the case in which the Queen was the prosecutor and the *Standard* leader-writer the defendant!

OFF FOR OTTAWA.

The Attorney General sails for Ottawa to-day. As "counsel for the Dominion Government" his presence there is supposed to be necessary in the BARNARD arbitration case. We understand the gentleman stated yesterday that he would go mainly on drydock matters—to find out, in fact, whether the Canadian dock subsidy would be paid as the work progresses, or in a lump sum at the finish. It will scarcely be credited that notwithstanding the oft' repeated statements of the Government and their organ to the effect that arrangements were all perfected; that after tenders have been asked for more than two months, and that after a dozen or more firms have been put to great expense to prepare bids, a doubt still lingers in the minds of the Government as to their financial ability to give out the contract at all!!! During the past summer we have frequently stated it as our belief that the Attorney General does not intend to again meet the House. Indeed, were he to do so, having violated one of the cardinal principles of the Constitution Act, he would be unseated. His defeat in any case is assured. Like the Scriptural war-horse he scents the battle from afar; but unlike that famed steed he turns his back on the impending fray. Mr. WALKEM goes to Ottawa on an office-hunting mission, and will not meet the House again—if he can help it.

McKENZIE vs. THE CITY CORPORATION.

This long-pending contest formed the subject of lengthy judgments by the Judges of the Supreme Court yesterday. Mr. Justice GRAY delivered the first judgment, which proposed to award plaintiff a sum of money about $160 less in amount than the judgments of the Chief Justice and Mr. Justice CREASE, who agreed to award the plaintiff $600, thus reducing by about one-half the verdict of the jury that tried the case last summer. Should the plaintiff accept this sum it will be paid by the city; in case of declension there will be a new trial. May we not venture to express a hope that the judgments delivered yesterday will prove the end of a long and expensive course of litigation?

Serjeant Cox and Psychology.

TO THE EDITOR OF THE COLONIST:—Sir,—In your Christmas paper is a notice of the sudden death in London last November of a busy and variously useful man of note, Edward W. Cox. Neither in your sheet, nor in old country papers, I have so far seen, is mention made that the departed Serjeant (at law) Cox held the position of President of the Psychological Society of Great Britain.

In his presidential address of Nov. 7th, 1878, now before me, Mr. Cox restated Society's definition of the term Psychology to be the investigation "of the forces by which the mechanism of man is moved and directed."

As, to many in the wide circle of your readers, Christmas week is not only a time of reasonable and becoming festivity; but also a season of solemn thought, I give the following extract from one of the closing paragraphs of the already referred to address of the late Mr. Cox:—

"Psychology offers to those who pursue it in the large and liberal spirit which I have ventured to commend to your favor a yet higher and holier pleasure. When the conviction has come to him, not by authority and dogma, but by the positive evidence of facts and phenomena, that there is a soul in man, the psychologist learns to see a soul in nature. The proofs of it are patent to him. He finds its presence about him everywhere, under-lying all substance, explaining many mysteries, and solving a multitude of problems, wholly insoluble by materialism. To the psychologist the universe wears a new aspect; this world has for him a new meaning; nature, new teachings; life, a new mission; duty, a loftier aim. He contemplates a nobler present, and hopes confidently for a greater future. AS HE MAKES THE PRESENT HE KNOWS THAT HE WILL MOULD THAT FUTURE. He asks himself if it be not possible, nay probable, that if there be a soul in man and a soul in nature—a present Deity, in fact—what is to us the material universe, constructed, as the scientists assert, of molecules, may be the surging up, as it were, in those infinitely various material forms, but true to a few types, of a universe of soul permeating and underlying the molecular structure of which it is only the perceptible embodiment, that is forever changing its shape, but remains the same in substance still?"

Psychologists of the United Kingdom hold friendly controversy, the world over, with those narrow-minded scientists whose self-conceit outruns their discretion. They also combat the peculiar views of secularists of every degree of knowledge and unbelief. While regarding as facts the WELL-PROVEN phenomena of ancient and modern spiritualism, the psychologists suspend judgment as to their origin, uncertain yet, whether they be the doings and "cantrips" of men and women now in another stage of being, or a partial unfoldment or evolution of a yet unfathomed depth of mysterious enough mundane human nature. The able and eloquent address, so incompletely quoted from, closes with the much admired bit of words worth beginning, "For I have learned to look on Nature." But fearing to longer trespass on your space I prefer to end with two pithier and much more hackneyed lines from Pope:

"All are but parts of one stupendous whole,
Whose body Nature is and God the soul."

Would that this quotation were still more hackneyed.

Your obedient servant,
W. F. TOLMIE.

APPEAL

ON BEHALF OF FAMINE-STRICKEN IRELAND.

WE THE UNDERSIGNED, MEMBERS OF THE Relief Committee, appeal to the ever-charitable citizens of Vancouver Island of all creeds and nationalities, but especially to the sons and daughters of poor, suffering Ireland.

It is quite unnecessary to draw the sad picture of the sufferings that are in store during this season for a great portion of that unfortunate and helpless Island. A cry of sympathy has risen in every land and all agree that private charity alone can partially alleviate Ireland's imminent calamities.

His Lordship Bishop Brondel, at Christmas noon service, made the initial start towards relief. A collection-box will be placed in the Church during the services until the 31st of January, the amount of which will be at once forwarded to the Archbishop of Dublin, who, as it is well known, distributes such gifts impartially to all who are in need.

In order, however, to extend to all the opportunity of saving from starvation their own unfortunate countrymen or fellowmen, we, members of the Relief Committee, will collect or receive subscriptions during the month of January and remit the amount through the same channel.

A DREARY CHRISTMAS.

A Husband and Father Frozen to Death within Two Miles of His Home with His Arms full of Christmas Presents.

The Portland *Oregonian* records the freezing to death of a German named E. Penning, near his home on the Pandry. The poor man was on his way to pass Christmas with his wife and children, and purchased toys and presents for them. Night came on, causing him to lose his way, so he tramped around through the timber at random. How long he wandered through the woods in complete bewilderment is not and never will be known. At length, overcome with cold and fatigue, Penning sank down and perished with cold. Search was made Christmas morning by his family, as he was expected, and his body found stiff and stark within two miles of his home. Clutched in his frozen grasp were the presents which the father and husband had purchased to gladden the hearts of the members of his household. The sorrow and anguish of the bereaved family whose Christmas was thus turned into the deepest mourning can better be imagined than described. The deceased was an industrious man, never indulged in drink, and worked hard to maintain his family in comfort.

Another Trip to Ottawa.

We understand that Hon. Mr. Walkem leaves here this morning for Ottawa *per* steamship Dakota. We learn that he proceeds to the Federal capital ostensibly for the purpose of ascertaining whether the Dominion Government will honor vouchers for the construction of the drydock at Esquimalt as that important work progresses. It must naturally occur to the public that this information could be very readily ascertained by telegraph but it is reported that the real object of the Attorney General's visit to Ottawa is to pursue his vindictiveness in the Barnard arbitration case. Be this as it may, the Province will be mulcted in the costs of the trip—a trip which, so far as the drydock is concerned, is altogether unnecessary, and on the other hand is entirely unjustifiable, inasmuch as the Barnard arbitration is purely a nominional matter.

Skagot.

The P. S. *Mail* says that it has been proposed to put the steamer Cassiar or some other lightdraft steamer on Skaget River, with La Connor as the starting point. The Seattle *Post* says that two gentlemen from Leadville, who came up on the last steamer to that place, say that the excitement at that place among the miners about the Skaget river gold mines is up to fever heat, and they have no doubt the rush in the spring from that section will equal that of Leadville a year ago. They say there are over 5000 men in that section who are footloose and out of employment, and they would not be surprised to see a large portion of that number arrive here in the spring, bound for the Skagot mines.

ARRANGEMENTS have been completed by which Messrs. Chandler and Shattuck have obtained control of the Carbon river coal mines. The complication, which had arisen by means of different filings on some of the lands, were removed by all parties abandoning their claims, and so leaving the lands vacant. These to the amount of 700 acres were entered at the land office in Olympia on Monday last, and are therefore fully secured. They were purchased and paid for at the rate of $20 per acre, or amounting to over $14,000 for the whole. They will probably purchase two or three hundred acres more, after which they will arrange for the opening of the mines. Work will begin in good earnest about the first of the coming year, unless the weather should delay operations.—*Seattle Intelligencer.*

CORRECTION.—Alex. Carvalho, husband of Mrs. Carvalho, who was shot by Verling, writes us from Eureka, California, to say that the statement published here to the effect that he deserted his wife is untrue. He says he left Victoria to transact important business of a private nature, and that he has remitted her regularly and frequently sums of money for her support.

COLD IN SAN FRANCISCO.—On Christmas day ice formed in San Francisco strong enough to bear a person's weight, and water-pipes, in some instances, froze up. At last advices the cold snap continued. This is most unusual weather for San Francisco, where snow seldom falls and ice is rarely seen.

NOTA BENE.—To-morrow is the last day to qualify for a vote at the ensuing Municipal election. Pay up your taxes.

THE entertainment at Broughton Street Hall is postponed until Tuesday the 6th prox.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

MONDAY, Dec. 29.

Billy, a half-breed, charged with assaulting Charles Wheeler, was further remanded for one day.

William McQuade, charged with assaulting Donald McLean by kicking him on the shoulder and with using threatening language towards him, was fined $20; in default two months' imprisonment.

Charley, an Indian, for being d. and d. was fined five shillings, and for breaking a door valued at $3 was ordered to pay $10, together with $2 costs incurred in effecting his arrest.

Nicholas Bertucci, charged with assaulting Antoine Perich, at a fisherman's camp off Store street, was fined $10 and costs. A cross-charge of assault was then laid and Perich was also fined in the same sum, His Honor holding that both the men were equally to blame.

Several drunk and disorderlies were disposed of summarily.

ARSON.

After a brief recess Daniel Taylor, a lad aged 10 years, was brought up on a charge of setting fire to a haystack, the property of John Trutch, Esq., on the 11th inst., situate in a field off Richardson street.

Mr. J. Trutch testified that on the evening of the 11th he was on Johnson street and heard the fire-bells ring; on enquiry he ascertained that his hayrick was on fire at Fairfield. The fire engines arrived and after some delay from lack of water the fire was brought under control. Witness remained and watched the burning rick the next day and at dark he was accosted by the boy LaPlante, who suddenly made his appearance and observed that it was dangerous to leave the fire burning all night for fear the wind might spring up. LePlante offered to stay and watch if witness would allow him to go and get a companion to stay with him. Witness consented and LePlante then went off and returned with the prisoner. Witness paid the boys $1.50 and gave them tea, bread and apples. They remained during the night and watched the rick whilst it burned out.

John LePlante was then put in the witness-box. He testified that Taylor came to him and asked him if he wished to have any fun. Witness applied in the affirmative and Taylor then asked him if he would come to Mr. Trutch's haystack and set it on fire whilst a ball was going on at Beacon Hill hotel, so that all the fellows would come away from the ball to the fire. Witness and Taylor then proceeded to the haystack and the former took some matches from his pocket, but they would not light. Witness then took his own matches and struck them and set fire to the stack. Taylor took some hay and stopped up the hole where the fire was set. Then they left for town and when they got to Anderson's grocery on Fort street they heard the fire-bells ring and returned with the engines.

The prisoner made a statement to the effect that LePlante asked him if he would go with him and set Mr. Trutch's haystack on fire. He consented and they both went. LePlante took the matches out of his pocket and asked the prisoner if he would set it on fire. Prisoner said "no," and LePlante then jumped over the fence and did it himself.

His Honor committed the prisoner for trial. On a charge of stealing the gun and watch from the premises of Mr. Ward, Beacon Hill, the prisoner was also committed for trial, the evidence adduced being similar to that in the charge against LePlante, who was committed and sentenced to three years' imprisonment.

ROBBERY AT COWICHAN.—A correspondent writes from Cowichan to say that his premises were recently robbed by Indians. He went before the Government agent there to procure the arrest of the offenders when he was informed that no one could be found to serve the warrant, as the Government positively refused to pay the expense incurred in making arrests in the outside districts. He asks, what is a despoiled settler to do? Do? Raise your voice and wield your pen in denunciation of a Government that will not do its duty or allow their servants to do theirs. It was the adoption of a like policy that brought on the disorders and murders in Yale and Cassiar.

At the recent consecration of Bishop Sillitoe for New Westminster, B. C., the Rev. the Earl of Musgrave, heir to the Marquisate of Normanby, said in his sermon:—"Tell me of all the world can give in the way of title, rank, or riches. Tell me of all it is able to bestow in the way of friendship, or flattery, or praise, and I surrender it most willingly to the one who covets it, if only I may have as my title here and my memory hereafter, 'The servant of the Lord.'"

TESTIMONIAL.—We are glad to have the opportunity of stating that a frequent and welcome visitor to Victoria, (Capt. Morse of the steamship Dakota) was, on his recent return here from Puget Sound, made the recipient of a token of esteem and regard by some of our fellow-citizens. The gift was accompanied by a short address wishing him and his family the compliments of the season, in which we heartily join.

VICE-ADMIRAL PREVOST.—This venerable and honored gentleman will take his departure for England to-day. During his stay in the Province he has actively assisted in the great work of Christianizing the savage tribes on the Northwest Coast, and has also taken a prominent part in advancing other good works. It is hoped by all who enjoy the pleasure of Admiral Prevost's acquaintance that he will shortly return to permanently reside in the Province.

WINCEYS! WINCEYS!—Just received a splendid lot which excels all former shipments in value. The 6 yards for a dollar sells on sight at the White House, Government street.

COLD.—On the 25th, Christmas day, the thermometer in Manitoba stood 58 degrees below zero.

THE FALL ASSIZES.

[Before Sir Matthew Baillie Begbie, Mr. Justice Crease and Mr. Justice Gray.]

MONDAY, Dec. 29.

McKenzie *vs.* the Corporation of Victoria—Mr. Justice Gray stated that there being a difference of opinion on the Bench respecting this case, it became his duty to deliver judgment first, which he proceeded to do. The reading of the judgment lasted nearly three-quarters of an hour, and was listened to with great interest by a crowded court-room. The case was one of damages, in which the plaintiff sued the Victoria City Corporation to recover damages to growing crops, etc., which it was claimed resulted from the passage of the city water main through plaintiff's land. The case was tried before the Court and the Jury rendered a verdict of $1200. This verdict was appealed by the city as excessive to the full bench. Mr. Justice Gray quoted copiously from the Water Works Act and reviewed the finding of arbitrators who awarded plaintiff the sum of $475 in August last. The learned judge after allowance for interest and adding the sum of $150 paid into court by the defendants, decided that the plaintiff was entitled to the sum of $449.79. If this decision was not accepted, then a new trial.

Mr. Justice Crease next read his judgment, reviewing the sections of the Act and the facts adduced at the trial with great clearness. He decided that the verdict was excessive and should be reduced to $600, or that a new trial be ordered.

The Chief Justice concurred with Mr. Justice Crease in believing the verdict excessive. His lordship held that the plaintiff was entitled to consequential damages in consequence of the acts of the defendants, and went copiously into authorities which bore on the case. His judgment was for $600 or a new trial.

Mr. McCreight, Q. C., Mr. A. E. B. Davie and Mr. Hett, for plaintiff; Mr. Robertson, Q. C., and Mr. Drake for defendants.

McIntyre vs. Jeffries—

The Chief Justice said the Bench were all agreed in this cause, that the rule should be discharged and the order made by Mr. Justice Crease sustained, except with respect to costs, which the Bench were unanimously of opinion should be referred back to Mr. Justice Crease.

Mr. Theo. Davie in support of rule; Mr. Drake opposed.

Fulton *vs.* Derby—Defendant was discharged from custody; plaintiff to pay his own costs of the motion; and defendant to pay costs in the cause.

For the plaintiff, Mr. Robertson, Q. C.; for defendant, Mr. Drake.

CRIMINAL BUSINESS.

Mr. Justice Crease, addressing the Grand Jury, said that there was only one case to come before the body, that against a boy named Leplant for robbery from a house. The Grand Jury retired, returning in a few minutes with a true bill.

The Chinese murder and arson case was continued till next assizes.

The trial of the case of Regina *vs.* Le Fook, assault, was set for Tuesday.

John LePlante was then arraigned on an indictment in which he was charged with stealing a gun and a watch from the residence of Mr. Ward, Beacon Hill. The prisoner pleaded guilty and was sentenced to three years' imprisonment.

Indian Mission Church.

The social held last evening at the Indian Mission Church situate on Herald street was numerously attended, amongst those present being many citizens who have ever evinced a lively interest in works calculated to civilize the native taibes of the Province. After the bounteous supply of cakes, pies and tea had been liberally discussed the Rev. Mr. Pollard, who occupied the chair, offered a few very appropriate introductory remarks and then called on Mr. W. McKay, one of the prime movers in the mission work, to address the audience. Mr. McKay, in response, made an eloquent speech in which he described the very satisfactory progress made in the mission since it was started just ten years ago. He was followed by Mr. Jas. E. McMillan who also made a very interesting speech, descriptive of the Indians in early days, their tribal feuds and their depraved condition. He was glad to state that the mission, under whose auspices the social was held, had greatly improved the condition of the natives and he was pleased to observe that there were representatives present from every tribe in the Province. He alluded to the benefits resulting from the propogation of the Gospel and remarked that it would do the hearts of white people good to witness the spirit of devotion amongst the Indians who had been converted. After a few words from Mr. M. Humber fervent and eloquent addresses were delivered by Rev. Mr. Reid, of the First Presbyterian Church, and Rev. Mr. Smith of the Wesleyan Church. During the evening vocal selections were excellently rendered by the choir belonging to the church, and at the request of the Chairman one hymn was sung in the native language. The singing was highly creditable. The social terminated with the doxology and benediction, after which turkeys, all ready for the table, were auctioned off by Mr. Jewell, the proceeds being devoted to the Sunday School in connection with the church.

THE TROUBLE IN MAINE.—There is much excitement in Maine in consequence of the counting out of Republican candidates. At Bangor on the 25th an attempt made by the Governor's orders to remove the State arms from the arsenal, was successfully resisted by the populace. The Republicans are said to be forming military companies.

VICTORIA LODGE, No. 1, I. O. O. F.—Last night the following officers were elected to serve for the ensuing six months: Bro. Michael Hart, N. G.; Bro. William Irvine, V. G; Bro. Fredk. Davey, Rec. and Perm't Secretary (re-elected); Bro. John Weiler, P.G., Treasurer (re-elected).

Latest from Sitka and Fort Wrangel.

The steamship California, Capt. Chas. Thorn, arrived at Esquimalt from the above ports at half-past 7 o'clock on Sunday evening having on board the U. S. mails, a small quantity of freight and 22 passengers. She reports that the new ten-stamp mill belong to the Alaska Gold and Silver Mining Co. commenced running on the 10th inst., and that it was expected the Company would clean up about the 10th of next month. Work in the other quartz mines at Sitka is suspended until the severe weather moderates. There is no later news from Cassiar. At Fort Wrangel there have been heavy snow storms. Trouble is reported to be brewing amongst the Indians there, the difficulty having arisen out of a renewal of an old tribal grievance. The California called in at Chican and Departure Bay on the way down and experienced cold and stormy weather during the entire voyage. She sailed from Esquimalt for Portland yesterday morning.

FROM PUGET SOUND.—The steamer Isabel arrived here at 3 o'clock yesterday afternoon for Port Townsend, having on board the overland mails and express, 20 tons of freight, consisting principally of flour, and a few passengers.

DELAYED DISPATCHES.

EUROPE.

PARIS, Dec. 24—Several members of the old cabinet met to-day and unanimously resolved upon presenting the proposal to Waddington, that as the maintenance or reconstruction of the old cabinet is impossible and Waddington or Say taking premiership being out of the question, Defreycinet should form a cabinet. Waddington was deputed to acquaint President Grevy with this decision. At 11 o'clock to-night the situation was unchanged, Defreycinet not having been summoned there is every reason to believe, however. But Defreycinet will be summoned for the third time to-morrow to submit a list of names already determined.

PARIS, Dec. 24.—The Republique Francaise and Paix published articles which are calculated to cause serious concern, as they can only be regarded as giving evidence of the existence of a serious difference between the views of President Grevy and those of Gambetta. The article of the *Republique Francaise* is regarded as a plain intimation that Gambetta is ready to take office.

PARIS, Dec. 25.—The *France Lantern's* letter, from Emile de Girardin, states that he wishes to quit the sphere of militant politics.

Waddington told President Grevy last night, that himself and Defreycinet had agreed upon the programme and list of ministers and under secretaries. Waddington himself declined to form the ministry, and recommended the task be entrusted to Defreycinet. The latter had an interview this morning with President Grevy, who requested him to reorganize the cabinet. Defreycinet has accepted the charge.

PARIS, Dec. 24.—The *Paix* states that there is no crisis at all, that there is nothing to do but appoint a successor to Leroyer. The *Paix* is President Grevy's organ.

PARIS, Dec. 26.—Thousands of persons crossed the Seine on the ice on Christmas day.

The total imports of wheat into France from August to the end of November was 16,000,000 hundred weights.

ROME, Dec. 25.—Gen. Arezzana, one of Garibaldi's most famous companions in the army, is dead. He was president of the "Italia Irredenta" committee.

LONDON, Dec. 25.—The lord mayor's Irish relief fund reached nearly £2000 last night.

LONDON, Dec. 24.—Queen Victoria has contributed £500 to the Duchess of Marlborough's Irish relief fund.

In gas shares there was yesterday a continuance of the speculative sales by the American division.

The solicitor of Arthur Orton, Tichborne claimant, writes to the newspapers denying the writ of error in the claimant's case, which was applied for under Kenealy's advice, and asserting that the doctor will not and cannot be employed as counsel in the case. He says there is no authority for the statement that the case will be taken to the house of lords, as the arguments cannot last longer than one day.

GRAVESEND, Dec. 26.—An almost continuous fog has prevailed on the Thames during the 18 days past, detaining the fleet of inward bound ships. On Wednesday night the fog lifted for a few hours and some vessels got away; but about 18 remain. Among them is the steamer Hooper, from Boston, Nov. 27, and anchored here since her arrival on the 10th inst.

BERLIN, Dec. 24.—In well informed circles in St. Petersburg it is announced that if the czar visits Berlin and Cannes the czarewitch will be appointed regent.

ST. PETERSBURG, Dec. 25.—The *Vedomosti* announces that Prince Dolgoruki, governor general of Moscow, intends to resign on account of ill health. General Ignatieff and Count Schouvaloff are mentioned as possible candidates for the post.

ST. PETERSBURG, Dec. 25.—There is a prospect of an understanding regarding the European peace and the settlement of the difficulties in Asia between Russia and England. It is also understood that favorable administrative measures regarding the press may be looked for before the end of the Russian year.

ST. PETERSBURG, Dec. 16.—Movikoff has arrived.

It is stated on good authority that General Drenteln has resigned his office under the following circumstances: Mirsky, having given information to the Russian police, General Drenteln commuted his sentence to imprisonment, but after an attempt on the czar's life the more excitable part of the czar's advisers insisted that Mirsky should be hanged. Gen. Drenteln, however, insisted of keeping faith with Mirsky, and asserted that hanging one more of their number would not affect the nihilists. Finally Drenteln kept faith with Mirsky, but the dispute produced so much feeling that he resigned. It is said the czar sustained Gen. Drenteln.

EASTERN STATES.

CHICAGO, Dec. 24.—The *Journal's* New York correspondent, who was present at the private exhibition of Edison's newly invented electric light Menlo Park last night, says the working of the light and lamp in the residence of Mr. Edison was completely successful, and people will be both astonished and gratified at the result of the public exhibition soon to be given. The successful operation of the light at Edison's residence makes it appear that matches will be things of the past in cities when the light becomes fairly established, while those who are manufacturing piping, chandeliers and globes now necessary in the use of gas, must find some other industries, and the owners of gas stock, from appearances, will be the poorest of people.

DELPHOS, Ohio, Dec. 20.—Bernard Picker, an old German, and a resident of this place, was called to his door by loud knocking at two o'clock. He went and opened the door, when he was confronted by three men, who were armed with revolvers. The robbers demanded his money. The old man resisted the demand, when he was shot and instantly killed. Picker's wife, hearing the disturbance at the door, came to his assistance, when the murderers seized her, bound her with ropes and tortured her by burning with fire, until she told them where the money was. They took fifteen hundred dollars and left. No clew has been discovered as to who the fiendish perpetrators were.

NEW YORK, Dec. 26.—Prof. Henry Morton, president of Stevens Institute of Technology, writes to the *Sanitary Engineer* that the latest published statements regarding the success of Edison's electric light have the effect of placing Edison and his claims in the same category with Keely and his motor, Paine and his electric engine, and Carey and his magnetic motor.

CALIFORNIA.

SAN FRANCISCO, Dec. 22.—The principal witness against Lucky Baldwin in his distillery fraud case has disappeared, and the U. S. District Attorney says one of Baldwin's clerks put up $1000 to bail the witness out of confinement awaiting trial.

The British in Afghanistan.

[Special to the Oregonian.]

BOMBAY, Dec. 24. — Yesterday a small column of infantry cleared the closed country between the Shirpur and Cabul. This action has restored confidence in the city, where the people are mostly with us. Were it necessary to save them, Gen. Roberts says he would attack the enemy immediately. If no opportunity to strike a blow offers before Gen. Gough arrives Gen. Roberts will make an attack the day following his arrival. A dispatch from Cabul says the first move of Gen. Roberts will be to eject the enemy from Ballahizar and the city. This effected the troops may be spared for defensive efforts during the winter. It is possible that the combination is not national, but feebly religious, and will collapse from irresolution. The combination has within the last few days apparently lost much strength.

LAHORE, Dec. 24.—Gen. Roberts reports his troops suffering from overwork, cold and exposure.

LONDON, Dec. 25.—Three thousand ghilzas attacked Col. Gordon at Juguluk on the afternoon of the 22nd inst., but were beaten off with loss and dispersed. Major Thackeray was badly wounded. One sepoy was killed and one wounded.

Mail from Cabul reached Jugulluk. The bearers were fired at *en route*.

LONDON, Dec. 25.—A correspondent at Lahore reports that a suspicious movement is noticed proceeding from the Afghanistan frontier. The Afghans in small parties are traveling to different parts of India. Every train for the interior takes from 20 to 40 Afghans. The authorities are on the alert and will watch travelers. Another curious circumstance is the fact that large numbers of Arabs are constantly arriving at Bombay, and although they are stopped at railroad stations whenever there is any ground for suspicion, they make their way to various cities of the interior by byroads. The matter is attracting the earnest attention of the government.

A Lahore dispatch to-day announces Gen. Gough has joined Gen. Roberts without opposition.

LONDON, Dec. 26.—A private letter to a British soldier in Cabul states that one of Yakoob Khan's generals told Sir Frederick Roberts that Yakoob Khan himself signed the death warrant of the embassy, and ordered the bodies of the murdered men to be dragged through the streets of Cabul.

The same letter reiterates the statement that £80,000 worth of Russian gold was found in Cabul.

IN modern times (with perhaps the exception of politicians) the best accepted word of two syllables commences with—Hum. It is warmly received under almost all phases of society because it is oblivious to sincerity and honesty which have become human weaknesses and without it society would be like salad without its ingredients. The last syllable is Bug. We have no affinity with the word, as proof of which we simply call attention to the reality of our preparations for the Christmas Holidays which have never been excelled in former years; the C. P. THE LOST STEAMSHIP.

Particulars of the Wrecking of the Borussia as Collected by the Associated Press Reports.

[Special Dispatch to the Oregonian.]

LONDON, Dec. 24.—The owners of the steamship Borussia allege that they believe the vessel is still afloat, as she is built with water tight compartments, and that she is still in the track of American vessels. They also allege that they are hopeful concerning the crew and passengers. The third officer's boat was last to leave the ship. Among the other boats was a large boat containing 20 Spaniards and the mate's boat containing 13 persons. These, when last seen, presumably by the third officer's boat, were doing well. The third officer made an unsuccessful attempt to tow another boat containing two men. The crew of the steamer when the boats left were building rafts. The wind was then blowing a gale. It is asserted at the office of the agents that the captain did his duty manfully.

SURVIVORS PICKED UP AT SEA.

LONDON, Dec. 25.—The bark Falda has arrived at Liverpool with five Spaniards, who were saved from the Borussia. Owing to their inability to speak English it is difficult to get from them a connected narrative of the terrible hardships they have undergone. Their boat, before it left the Borussia, contained, besides the Spaniards, the mate and three women, but no sooner was the boat lowered than it was partly stove by knocking against the steamer. The mate and women accordingly returned to the wreck, but the Spaniards partly stopped the hole in the boat with clothes, and their rope breaking they were cast from the steamer. They had some provisions but none of them knew anything of seamanship. For five days and six nights they were tossed about, suffering terribly, when they were observed by the bark. They knew nothing of the fate of the Borussia.

THE THIRD OFFICER'S STORY.

LONDON, Dec. 25.—In his statement the third officer of the Borussia says that after a large boat containing 20 Spaniards and mate's boat containing 13 persons had left the Borussia a life boat containing two stewards of the steamer, got adrift. He was sent after this boat by the captain and took charge of it, taking his own boat in which five men were left, in tow, but the boat was swamped and all on board were drowned. The third officer endeavored to again reach the Borussia, which was fast sinking, but was unable to make headway against the wind. He was ultimately compelled to abandon the attempt and run before the wind. At the time this occurred there were then three boats with the Borussia.

TO BE INQUIRED INTO.

The board of trade has ordered an inquiry into the loss of the Borussia.

DR. SPINNEY & CO'S
DISPENSARY,
No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,
Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.
Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.
DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)
CHLORODYNE
IS THE ORGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.
The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousand of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.
CHLORODYNE acts like a charm in diarrhœa, and is the only specific in cholera and dysentery.
CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.
CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.
EXTRACTS FROM MEDICAL OPINIONS.
The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."
Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.
Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."
See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.
CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.
Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Ha vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

MUNICIPAL.

A BY-LAW
TO REGULATE THE ELECTION OF A MAYOR AND COUNCILLORS FOR THE CITY OF VICTORIA IN THE YEAR 1880.

WHEREAS, IT IS EXPEDIENT TO make provision for the Election of a Mayor and Municipal Councillors for the City of Victoria for the year 1880.
BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria, as follows:—
1. The Election of a Mayor and Councillors for the City of Victoria, for the year 1880, shall take place on the second Monday in the month of January, 1880, and such election shall commence at 12 o'clock. noon.
2. The nomination of Candidates for the respective offices of Mayor and Councillors for the said City shall take place at the new City Hall, Douglas street.
3. The Returning Officer of Yates Street Ward shall, on the second Monday in January, 1880, at noon, nominate such persons as shall be put in nomination in that behalf by some duly qualified voter as candidates for the said offices, as the case may be. A show of hands shall then take place, and the said Returning Officer shall thereupon declare which of the candidates for the said offices has or have been elected by the show of hands.
4. In case a poll be duly demanded at the election of a Mayor, the vote of the electors shall be taken on the following day, at the new City Hall, Douglas street, in the said City of Victoria, and the said poll shall be open at 10 o'clock A. M. and close at 4 o'clock P. M.
5. In case a poll shall be duly demanded at the election of Councillors for any Ward in the said City of Victoria, the vote of the electors entitled to vote in such Ward shall be taken on the day following the nomination at the following places, that is to say: In Johnson Street Ward, at the new City Hall, Douglas street, in the said City; in Yates Street Ward, at the Police Barracks, Bastion street, in the said City; in James Bay Ward, at the old Council Chambers, Government street, in the said City; and the said poll shall be opened at 10 o'clock A. M. and closed at 4 o'clock P. M.
6. In case of a poll at an election for Mayor or Councillors the votes shall be given by ballot.
7. The ballot of each voter shall consist of a paper [in this By-law called a ballot paper] showing the names and occupations of the candidates for the office of Councillor. In Yates Street Ward, in addition to such ballot paper, there shall be an additional ballot paper showing the names and descriptions of the candidates for the office of Mayor; each ballot paper shall have a number printed on the back and shall have attached a counterfoil with the same number printed on the face. At the time of voting the ballot paper shall be marked on both sides with an official mark and delivered to the voter within the polling station, and the number of such voter on the Register or List of Municipal Voters shall be marked on the counterfoil, and the voter, having secretly marked his vote on the paper and folded it up so as to conceal his vote, shall place it in a closed box in the presence of the Officer presiding at the polling station after having shown to him the official mark on the back.
8. Any ballot paper which has not on the back the official mark, or on which votes are given to more candidates than the voter is entitled to vote for, or on which anything except the said number on the back is written or marked by which the vote can be identified, shall be void and not counted.
9. After the close of the poll, the ballot boxes shall be closed up so as to prevent the insertion of additional ballot papers and shall be taken charge of by the Returning Officer for Yates Street Ward and that officer shall, in the presence of such of the candidates as may be in attendance or their agents, and of the Returning Officer, open the ballot boxes at the new Council Chambers, Douglas street, in the said City, and ascertain the result of the poll by counting the votes given to each candidate, and shall forthwith declare to be elected the candidates or candidate to whom the majority of votes have been given.
10. Where an equality of votes is found to exist between any candidates at an election, and the addition of a vote would entitle any of such candidates to be declared elected, the Returning Officer shall give such additional vote, but shall not, in any other case, be entitled to vote at an election for which he is Returning Officer.
11. And for the purpose of regulating the mode of procedure at such election; and of conducting the said polls, section one of the By-Law entitled "A By-Law to regulate the election of a Mayor and Councillors for the city of Victoria in the year 1875," Commencing: If any candidate nominated during the time appointed, etc., together with all the subsequent sections of the said By-law and the schedule thereto appended are hereby incorporated with this By-law and shall be read together with this By-Law as if the same had been re-enacted, word for word, herein and hereby.
This By-Law may be cited for all purposes as "The Municipal Elections By-Law, 1880." Passed the Council December 24th, 1879.
